

CFA INSTITUTE WEBINAR:

From Breakdown to Opportunities: Medtech powers rapid recovery from COVID-19

Tuesday, 19 May 2020

2:30pm – 3:30pm HKT (GMT+8)

CFA Institute

SPEAKER

Jack Wong

Founder of Asia Regulatory Professional Association
(ARPA)

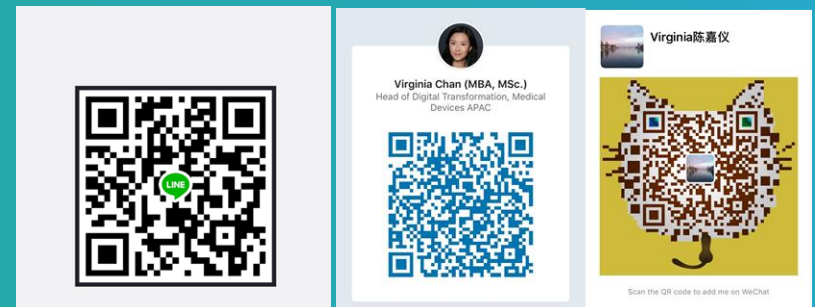

Speaker Profile

- Over 18 years of medical devices and digital health industry experience in global and APAC leadership
- Head of Marketing & Sales Development (APAC) at the world's leading dental implant company Straumann and received "Frost & Sullivan" Award
- Global Product Development Lead in Germany and APAC Marketing Director at Dentsply Sirona (No. 1 dental company)
- Chair of Digital Regulatory at Asia Regulatory Professional Association

Virginia Chan

MBA, MSc. (Information Systems Management)
Head of Digital Transformation, Medical Devices Industry, APAC

**From Breakdown to Opportunities :
MedTech powers rapid Recovery from COVID-
19**

Embrace the new normal and learn how medical technology industry speeds up life-saving for preventive measures and treatments

1

Industry 4.0 : digitalization to accelerate innovation & ramp up production

2

Digital Health as the new normal using IoT
(Case study)

3

#Regulators ease rules to speed up
breakthrough in drugs and vaccines

4

Implication for investors and the public at
large

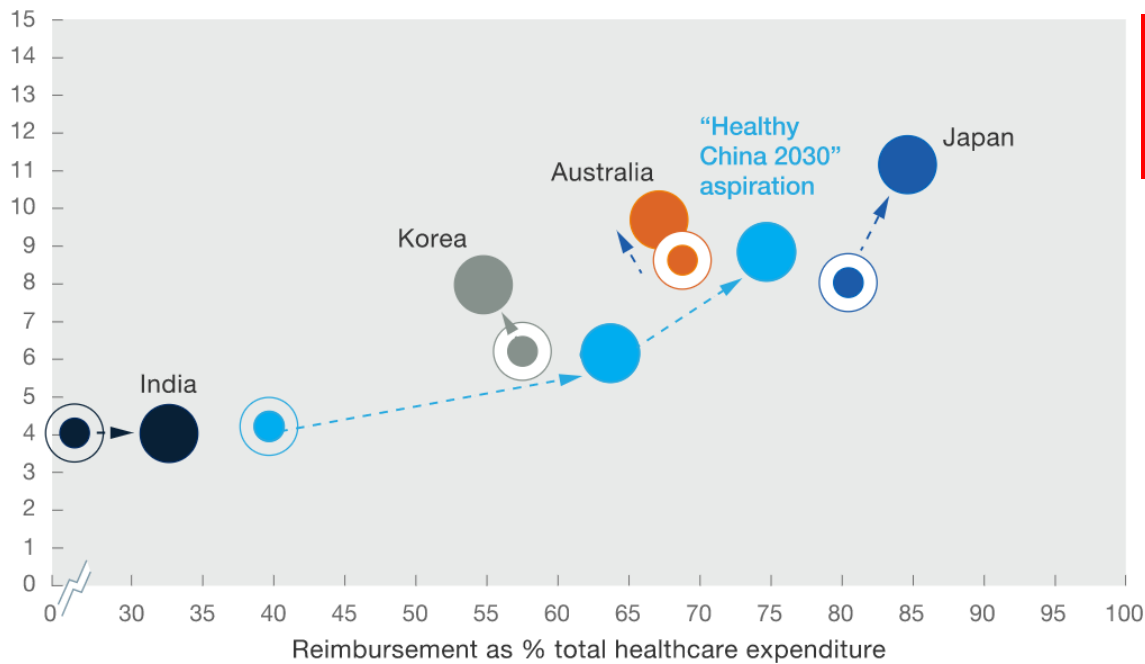

**COVID-19 accelerates Megatrends
towards digital transformation of
Medical Devices Industry**

Healthcare Security is National Security

COVID-19 accelerates digitalization in healthcare industry

Total healthcare expenditure as % GDP

--> Direction of changes from 2007 to 2017

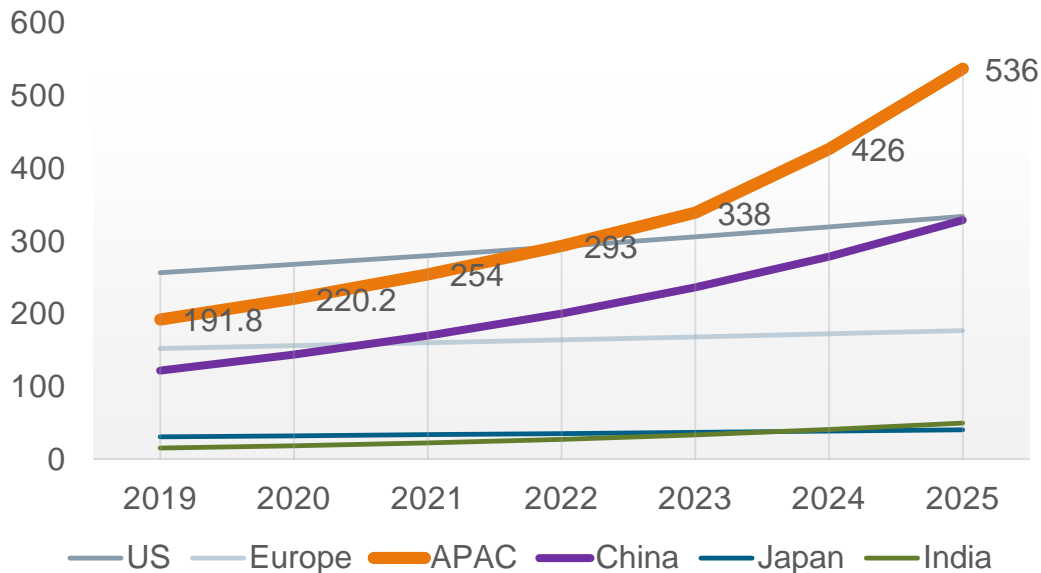

McKinsey&Company | Source: BMI Research; press search

USD500Billions Global Medical Devices Market in 2019

Aging Population & Emerging Markets Accelerate growth

MedTech Market Sizing (in USD Billions)

#Fight COVID-19 : Critical moment to Support production ramp-up and regulatory approval of Medical Supplies

Wave 1 : Protective Gear

- 40% PPE
- 2X gowns
- 3X N95
- 6X surgical mask

Wave 2 : Life Support & Test Kits

- Ventilator
- Test Kits
- Dialysis
- Diagnostic equipment

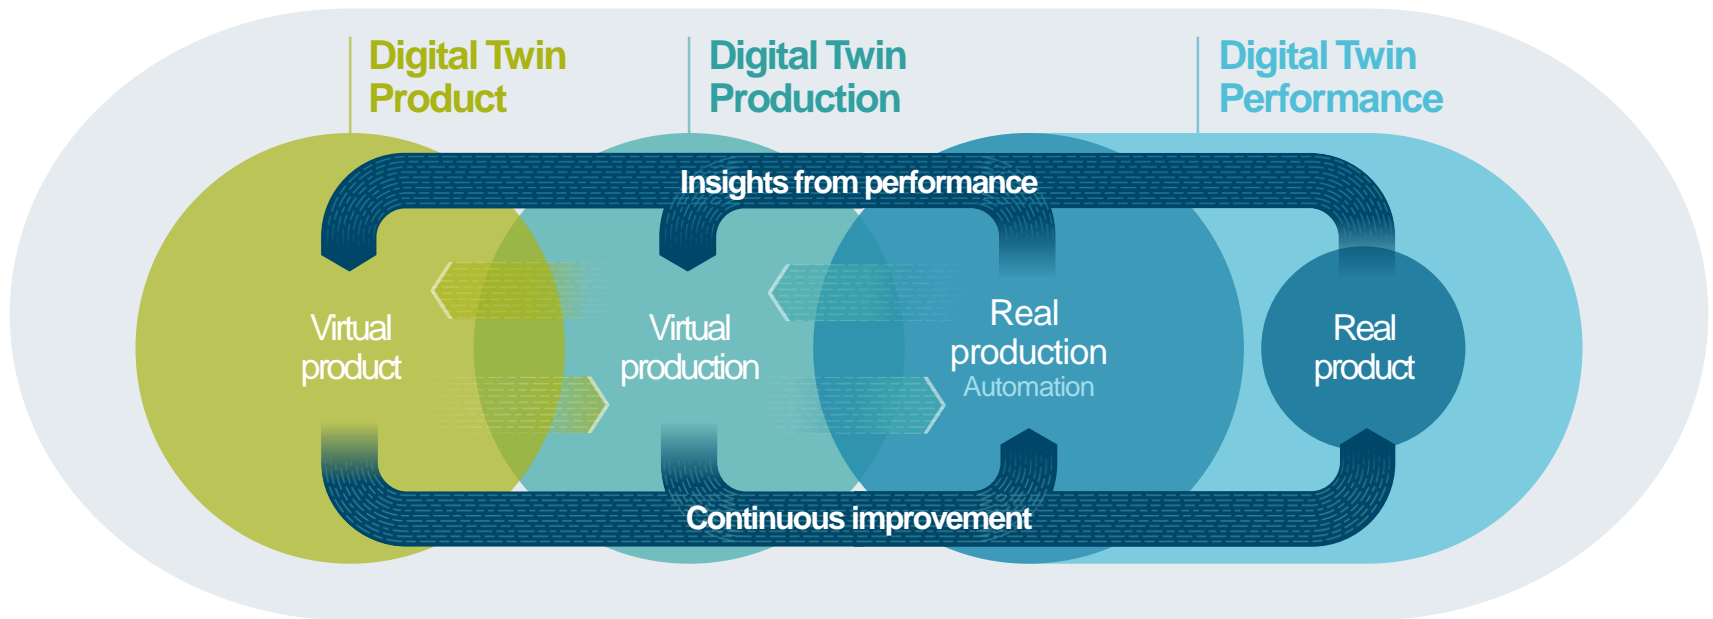

Wave 3 : Drug & Vaccine

- Overall supply of MedTech
- Drug and Vaccine

**Industry 4.0 to accelerate
innovation and ramp up production**

Accelerate Innovation through production with Digital Twin (Physical to Virtual World with Data)

Virtual Reality – Catheter and Lung Model Facilitate Training & Education

SIEMENS
Ingenuity for life

Digital Twin Product

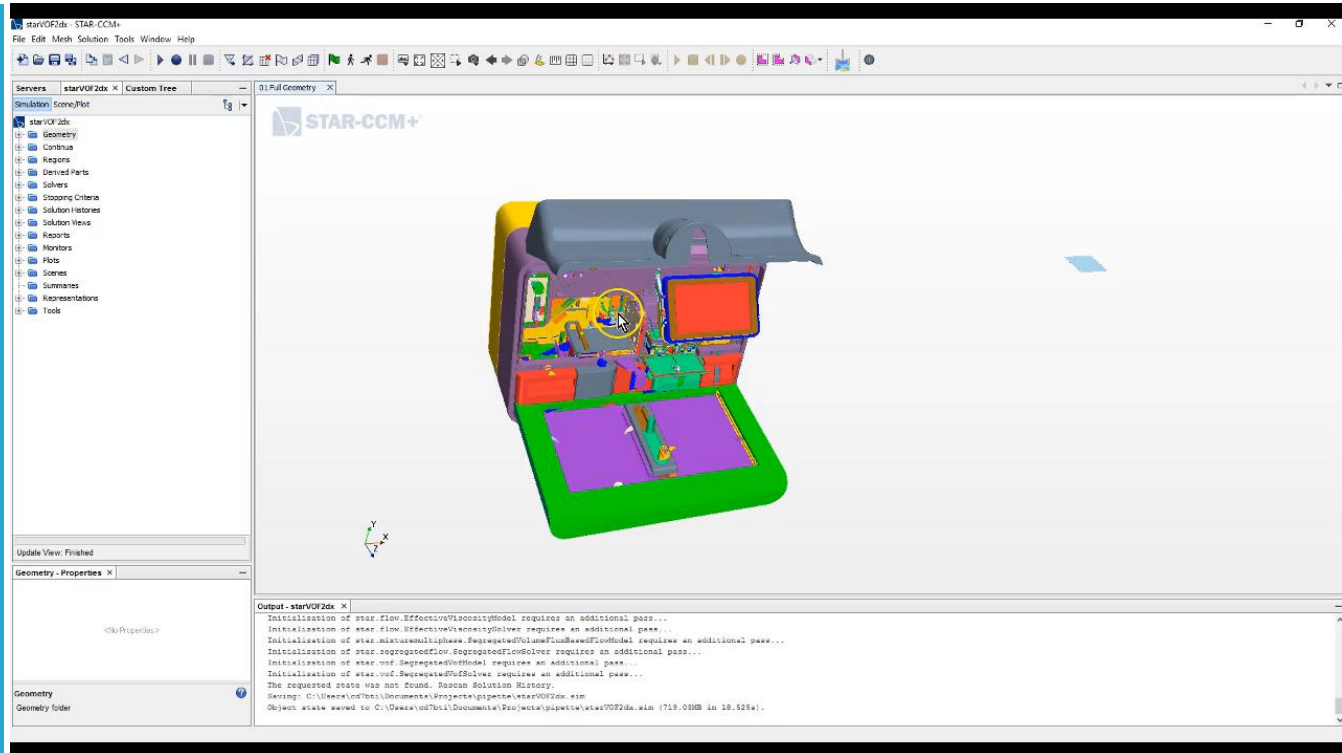

Digital
Product

SIEMENS
Ingenuity for Life

Design Exploration & Optimization

Fewer design cycles required; greater understanding / insight obtained through digital prototype

SIEMENS
Ingenuity for Life

Fluid Flow Analysis

Optimize fluid flow for throughput while meeting sample quality requirements

Ventilator – 4 weeks from design files to production

The screenshot displays the Siemens Teamcenter interface for a product named PB560. The left sidebar shows a hierarchical BOM tree with the following structure:

| Element Name | ID | Revision | Revisor |
|----------------------------------|--------|----------|----------|
| PB560 | 007930 | A | PB560 |
| Base | 008050 | A | Base |
| Air System | 007792 | A | Air Syst |
| Control Panel | 008057 | A | Control |
| Cables | 007922 | A | Cables |
| Input Output Noses | 007764 | A | Input O |
| Battery Assy | 008037 | A | Battery |
| Labels | 007812 | A | Labels |
| 17206_2963500 batterie legendair | 007968 | A | 17206_2 |
| Rubbers | 007910 | A | Rubbers |
| Screws | 007830 | A | Screws |
| Door | 008077 | A | Door |
| Airfan | 007818 | A | Airfan |
| MainBoard | 007871 | A | MainBo |
| Screws_1 | 008058 | A | Screws_ |
| Power Switch | 008048 | A | Power S |
| PCB | 007917 | A | PCB |
| Alternation | 007926 | A | Alternat |
| Labels | 008039 | A | Labels |
| Bare Board | 008020 | A | Bare Bo |
| Cover | 007806 | A | Cover |
| 1358_3804800 Filtre entrée d'air | 007927 | A | 1358_38 |
| Cover Assy | 007803 | A | Cover |

The main 3D view shows a white ventilator unit with a blue control panel and a purple display screen. The interface includes a top navigation bar with tabs for Overview, Finishes, Made From, Where Used, Changes, Attachments, History, Parameters, Relations, Collaboration, Participants, and Simulation. The Siemens logo is visible in the top right corner.

Publication

Regulatory Textbook

- To develop the professional, the very first Asia Regulatory textbook was developed
- Name of book: **Handbook of Medical Device Regulatory Affairs in Asia**
- We got support and writers from the following organisations to write the book (AHWP, WHO, US FDA, EU, Japan PMDA etc.)

What is medical device?

Definition

Medical Device

any instrument, apparatus, appliance, material or other article, whether used alone or in combination, including software necessary for its proper application intended by the manufacturer to be used for human beings for the purpose of:

diagnosis, prevention, monitoring, treatment or alleviation of disease

diagnosis, monitoring, treatment, alleviation of or compensation for an injury or handicap

investigation, replacement or modification of the anatomy or of a physiological process

control of conception

Does not achieve principal action by pharmacological process, immunological means but may be assisted in its function by such means

Questions

Alcohol wipes is classified as medical device?

Questions

Alcohol wipes is classified as medical device?

Answer: What do you want?

- Pharmaceutical: clean wound (pharmacological action with human body)
- Medical device: clean surgical instruments
- Household product: clean floor (no medical use)

Medical
use

Questions

Vaccine is drug, Syringe is device. Prefilled Vaccine syringe is drug or device?

Questions

Vaccine is drug, Syringe is device. Prefilled Vaccine syringe is drug or device?

Answer: Drug

- Primary function is Vaccine and hence the combined product follow Vaccine classification i.e. drug
- 1 registration vs 2 registrations

Questions

Vaccine is drug, Syringe is device. Prefilled Vaccine syringe is drug or device?

Answer: Drug

- Primary function is Vaccine and hence the combined product follow Vaccine classification i.e. drug
- 1 registration vs 2 registrations
